

# Choosing the Right Location for Your Villa

*... to create your unique lifestyle Villa at Blue Haven Bay*

Master plans are conceptual overviews only, they are not to scale, and only depict rough concepts and approximate layout visions. These master plans are constantly adapted as projects and surrounding areas as well as market conditions change. They do not depict or portray a list of infrastructure, facilities or surrounding projects/areas as they are forward looking and can thus only show a possible outcome or scope of projects and their surrounding areas. The Master plans may only be used to indicate approximate location of individual plots, and not to reference adjacent or surrounding plots, infrastructure, layout or areas. Some areas depicted in these master plans are part of individual company developments, while others are individual lots.
